

# SCARS MINIATURE MADNESS PRICE LIST 2024

These price lists are guide lines to give you an indication of what a model will cost to be painted in the 2 different levels we have to offer and what the assembling costs would be if you choose for the option to let us build your models.

There are many different models, some are very complex while others are quite simple so keep in mind that the price can be higher than stated in these lists.

All prices include painting and basic basing, this means that you get a base with sand, tufts flowers, grass, cork/rocks.

Any additional things you want to add to the bases is possible but we will have to discuss this.
